

The Cober Capsule – A Fifty Year Time Capsule Schools Support – Social History Project

The Cornwall Birth And Baby Appeal

Going above and beyond in maternity and new born care

Background

On 4th September 2017 the Rotary Club of Cober Valley Helston will bury a time capsule in the grounds of the Penrose Estate to be opened on 5 July 2067. Up to 1,000 envelopes are available to be filled to put into the time capsule for individuals, families, organisations, schools and businesses. They cost £5 each and the funds raised will go to support the RCHT Birth and Baby Appeal at RCHT Treliske. More information on the appeal can be found at the hospital website www.royalcornwall.nhs.uk

School Involvement

Hilary Young from the Rotary Club held an assembly in school and talked to the children about the Time Capsule Project. If your family would like to take part in the project envelopes are available from the school office. In the envelope is further information and details on where to take your completed time capsule.

Thank you for supporting this project.

Everyone is invited to see the burying of the capsule at Penrose on 4th September 2017.
